BIRDS ON VIEW 10.00 A.M.

CATALOGUES AVAILABLE : ALAN ROGERS (052) 721163

## FOREWARD

Having been in the sport of Pigeon Racing the last Fifty Five years, I have enjoyed much success here in Adelaide. I find now I am overstocked and must cut down my numbers, so I am offering some lovely birds for Auction. I have won 8 Federation Races and have had many placings over all distances, which are far too numerous to mention.

I hold the record of winning 9 races in my Club, in 2 consecutive seasons. I have won the Club Aggregate many times.

The birds are a wonderful family that I have kept for the last 40 years, their bloodlines are :

### JANSSEN

### BRICOUX

### SION

### STASSART

Two pairs of JANSSENS were imported out from England by the late Jim Simpson, and the late Charlie Henderson, from whom I procured a cock bird (SMOKEY BLUE CHEQ JANSSEN COCK).

The SION was imported to South Australia by the late Harold Taylor, and I was able to procure a pair of SIONS from the imported birds.

Harold Taylor also imported the BRICOUX out, of which I was able to secure a pair.

I mated the JANSSEN and BRICOUX together, and then added the SION with them, and they started winning races the first year I flew them.

A couple of seasons later I went to the late Charlie Henderson, well known to all fanciers and bought a beautiful "BLUE GOWN MONA" STASSART COCK, which I used as a cross.

So you can see these birds have the best blood lines, and this is largely the family I am offering.

.....

The two birds that were the force behind my birds was a RED CHEQUER COCK 14131, a real champion, and a BLUE CHEQUER PIED HEN 5606, which was also a champion on the track and producer.

The Red Cock 14131 flew for five seasons and won 9 races and numerous placings up to 450 miles. He won a lot of money in pools ( Club Members named him "Money Bags").

The Blue Chequer Pied Hen 5606 did not race as a yearling, but as a two year old. She was 1st PIMBA 270 miles: 6th Association MARREE 370 miles: 4th Association MARREE 370 miles: 5th GOONADATTA 550 miles: in the one season.

Both have produced me some wonderful pigeons.

So you can see these birds have excellent performances behind them.

These birds will win on fast or slow velocities, and are at their very best on an all day fly.

I have added the GOODYER strain, which I think is the best strain sold in South Australia in the latter years.

The GOODYER COCK added is a Grandson of the Cock that Geoffrey Stevens paid \$1,800 for at Allan Goodyer's sale.

Plus a couple of JOHN BRISLIN'S BORDINGS: and a pair KEITH WICKHAM bred for me, and they have proven a good cross with my birds.

I have sold a few birds in Geelong and they have performed well for their owners, and I am sure these birds which I now offer for sale will do equally as well.

The few I have sold interstate have had success in W.A., Qld, N.S.W & Victoria.

This season which we are now in I have won 4 races so far.
