Testimonials

"I can say with certainty that the complete sale of pigeons by Brian Catling represents one of the best opportunities I have known in recent times for Australian fanciers to obtain world class quality racing pigeon stock. Brian has always been in pursuit of the best possible pigeons, only the best will do, his selection criteria is first class and his ability to keep his pigeons in super condition has been masterful. I fully recommend and strongly suggest that if you're wanting to improve your results to the highest level, these are must have pigeons"

I have known Brian Catling for about 5 years. Our friendship developed through our mutual love of high quality pigeons and in my opinion Brian has the best collection of middle distance and sprint pigeons that I have ever seen or handled. He is only ever interested in the very best and has spared little expense in acquiring some of the best pigeons in Australia. Brian looks for performance throughout a pigeon's pedigree, in other words he isn't interested in what may be "fluky", one off winners. He selects pigeons that are overloaded with winning genes and this is demonstrated by the depth of winners produced by these birds, generation after generation. His family of Van Loon and Janssen pigeons is based around the best of Greg Hamilton's birds and they have been highly successful not only in Adelaide but the eastern states as well. They are beautiful birds to look at and to handle and race like rockets. They have proven to be a particularly strong family in middle distance races regularly win after flying 8 to 10 hours.

I strongly recommend anyone who is looking to improve the quality of their stock loft to come to Brian's sale and try to purchase some of these beautiful, proven racing pigeons.
Paul Callaghan, Newcastle

Reference Birds: My loft is based around the following 3 birds: “Phantom”, “Goodwin Hen” and “Planet 13”. All three spent their retirement here. Although they are all deceased they have left their stamp on my loft, and many other fancier’s performances.
