This is a complete sell out of my highly successful pigeons. At the end of the racing season I will be moving overseas to live. I will continue to race this season. I will make available for sale later in the year all remaining race birds.

These birds have been responsible for many of the results recorded in recent years, putting me at the top of the NRC sprint points in 2015 and 2016, and 2<sup>nd</sup> both years in the overall points.

Flying six seasons to date with the NRC, I have won 37 Open NRC races, and been second 23 times. I have been an NRC points winner, three times second, and 5<sup>th</sup> and 9<sup>th</sup>. This has all been achieved on the back of zero medication in the loft, apart from worming and PMV and Pox vaccines.

Introducing my own direct imports into the loft, was an incredible turn around point for not only outstanding individual race pigeons, but multiple drops, and increased consistency in the sprint events. The focus for my purchases was to obtain birds that came from lines of racing producers, and had performed directly themselves, either on the track or in the breeding boxes

Once they landed here, each of the imports immediately started producing winners in the NRC. And very quickly the children I put to stock were also doing the same. I have always raced with success, but never have I raced birds that show so much speed and consistency of performance to repeatedly race at the front of the release. In 2015 after 16 sprint/middle races to 500km, sending 30 a week, I lost just 18 birds, and in 2016 just 18 birds in 16 races.

Club members will attest to the great returns I have had, with generally 75% of my birds home in the first 20 minutes, and often very close to a full sheet when clocks were presented for reading. Many times members in the club were struggling to have half their team home in the same period.

The first of the imports to arrive was Sir John, Sofian, and Blue Shocking from a Jonkers – Doorenbal partnership. Later Brother Quattro – bred from a Kees Bosua nest sister to the dam of Blue Shocking arrived after a lengthy hold-up. While Sir John was purchased a couple of years back by another Qld flyer, and Sofian was gifted to a new flyer in Qld, the other imports remain to be sold as a back bone to the recent performances.

**'Sir John' was 24<sup>th</sup> NPO 14,983 birds, 'Blue Shocking' was 6<sup>th</sup> NPO against 16,016 birds, 'Sofian' was 4<sup>th</sup> NPO against 4018 birds. Brother Quattro had produced a 26<sup>th</sup> NPO 3998 birds prior to purchase.**

The next lot of birds I imported were two hens from Combinatie Lokhorst in Holland. They are exceptional flyers and consistently NPO placed. Lara was a super race hen for them taking many top prizes, including Ace Bird one year and 4<sup>th</sup> Ace bird the following year. Lara's dam won 11 races and was placed top 100 on 25 occasions. Lara is without a doubt a super breeding hen, producing many top performances, and birds that have gone on to breed super race pigeons for me. Kirsten was dam of a NPO placed pigeon prior to arriving in Australia, and has bred a NRC winner, and birds to breed winners and be placed in the MNCPF, the VHA and SCF, and other clubs.

Blue Shocking and Brother Quattro have become the backbone of the stock loft, and both have been incredibly successful mated to Lara. Blue Shocking and Sofian was on loan the first year they arrived, and Tommy Lett will attest to how good the breed is, advising me dozens of winners in his loft come from the line. Blue Shocking was also sire of a very good bird that raced top ten in the GC50000 Ace Bird series, leading to the final event. He was then G'sire of the GC50000 Ace Bird the following year. Blue Shocking was also sire of 2<sup>nd</sup> last year in a 150km toss for the Qld 10000.

The birds available in Sydney are a wonderful representation of these imports. Many have not been tested on the track, being late bred and only given a box last breeding season. I have always tried to keep my breeding pairs to around 30 pair. As a result, I have been very selective with what I retained. I have let a few birds go to those seeking some winning blood, and 2 years ago offered a small draft for sale on the internet. One of those was the sire of an ARPJ Ace Bird from Brother Quattro and Lara.

I have been particularly proud of my results at the longest NRC races, finishing in the first four each year I raced Bowen 865km. The small contingent of Sunshine Coast birds face the added handicap from Bowen of racing down the back of the Great Dividing Range, and always curling back from around 50km south, flying dead ground, generally into the wind. The distance birds I chose as a base have the versatility of performances from 500km onwards. The later introductions I concentrated on their capability of performing from the middle distance onward also. For the distance pundits these birds provide reliability and consistency, with the added ability of the Mackay Cock/David Leader line pushing on into the night.

This sale represents a tremendous opportunity to purchase current winning blood with performance a key factor generation after generation throughout the pedigrees. I wish everyone well with their purchases

- Lot 52 BBC SC 16 – 865 Raced last season in the Qld 10,000 finishing 26th on the day.  
Same way bred as the top race and stock hen 631. Young cock proved he could fly into tough, head wind conditions. Brothers and sisters raced and produced outstanding results. Sire Brother Quattro. Dam Lara.
- Lot 53 BBC SC 15 - 221 Bred for stock. Sire Blue Shocking. Dam Lara. Full brother to the top race birds 132, 186 and 12. All birds bred from this cock last year were gifted for stock to a new flyer

- Lot 55 BBC VHA 12 - 419 Bred by Garry Mountjoy and full brother to 2nd Fed VHA 800kms. This is a lovely cock. I think this cock is top line, but I have had limited results because of mating him two seasons with hens that did not settle. However, this year I have 8 youngsters survived the [re-season training and ready to race. Garry Mountjoy is one of Melbourne's leading performers when races get past 10 Hours
- Lot 56 BBH SA 09 - 8765 Bred by Rod Stasinowski and a fabulous stock hen. She was a double SAHPA placed hen taking 6th SAHPA Hawker 320km and 15th Assoc Roxby Downs 500km. She is dam of 15137, 4884 and 4881 that have all bred some very nice performers. She is grand dam of the red hen SC 15-93. Full of middle distance performance. She is bred from a full brother to 1st Assoc Lyndhurst 500km He is Grenville Evans/Janssen/Richard Clingan.
- Lot 57 BCC SA 11 - 19219 Bred by Rod Stasinowski and the key distance cock in my loft since buying him 2 years ago. First season he was sire of 2nd NRC Bowen 865km, and last year sired the Carmilla cock 640km. Sire SA 06-04007 25th Assoc The Twins 620km. Full sister was 5th Assoc Lyndhurst 510km, a brother bred 1st Assoc Mortlake 500km, and a sister bred 1st Assoc Lyndhurst. Dam SA 10 -17365 27th Alice Springs. Her dam SA 98 -47152 bred 9 Assoc placings including 1st Assoc Mortlake 500km and 2nd Assoc Holbrook 800km. Great mix of middle distance and distance blood through 19219
- Lot 58 BBC SC 16 - 163 Late bred kept for stock. Sire Brother Quattro. Dam Lara. Same way as outstanding race and producing birds for me. Not yet used at stock.

- Lot 60 BBC SC 15 -59 Outstanding race cock. Landed with 2nd NRC 575km and then placed 5th NRC 710km in the dark with no day birds. Lots of potential with this cock. His sire was a Ronnie Williamson import GB 13 - 46808 from his National line. Dam was the outstanding Brother Quattro x Lara hen 631. See Lot 9. 59 raced well when the Speed was on and also had the stamina for an all-day fly into strong head winds.
- Lot 61 BCH Ballt 13 - 124 Excellent race hen that was 6th NRC, but on 3 occasions landed with the NRC winner, and also 3rd NRC. She flew 12 races to 500km.
